New Linhof Products

Large Levelling Ball Head 90 mm

031504 – 3/8"

031503 – 1/4"

New accessory for Heavy Duty Pro Tripod (003323), Heavy Duty Pro Tripod „Vintage“ (003325), Studio Stand II (003431) as well as for the Clamp Mount (003867) of the Linhof Studiomatic tripods.

As a useful supplement for tripods with the large clamping fixture of 90 mm, Linhof has designed a new ball head that will allow an all-round leveling of 35 degrees. Available in two versions: with 1/4" or 3/8" camera screw. Heavy cameras and devices can be attached directly or via corresponding tripod heads on the universal mounting plate. Numerous combinations are possible! The ball head is held securely around its entire diameter with a large clamping lever. Its compact, short design ensures exceptional stability even for heavy equipment in any position up to a 35 degrees incline. The ball head is maintenance-free, so it does not require to be greased.

Net price without VAT: **290,00 Euro**

Technical specifications:

Large Levelling Ball Head 90 mm, 3/8"

Code 031504

Base diameter 90 mm

Top plate diameter 70 mm

Camera screw 3/8"

Weight 393 g

Large Levelling Ball Head 90 mm, 1/4"

Code 031503

Base diameter 90 mm

Top plate diameter 70 mm

Camera screw 1/4"

Weight 393 g

Large Levelling Ball Head 90 mm (031504)
with 3/8" camera screw

Large Levelling Ball Head 90 mm (031504) in use with Heavy Duty Tripod (003323) that will allow an all-round leveling of 35 degrees. Clamping is done via the lever of the clamp mount of the tripod.

New Linhof Products

Extra-slim plate with dovetail track

003694

The new extra-slim dovetailed adapter plate is intended for use with mirrorless system cameras to prevent obstruction, e.g. to avoid the fold-out display.

It fits the Linhof heads 3D Micro, 3-D Levelling Head II, the panoramic plate as well as all heads with dovetail connection (Arca, Novoflex).

The extra-slim plate has a square base and can thus be used longitudinally or transversely.

Net price without VAT: 35,00 Euro

Technical specifications:

Extra-slim plate with dovetail track Code 003694

Length x width 30x50 mm

Base plate 37x37 mm

Camera screw 1/4"

Weight 29 g

Extra-slim dovetailed adapter plate

Code 003694

Adapter rail long with dovetail track

003695

The new extra-long dovetail 150 mm adapter rail is the ideal complement to special tasks, e.g. in panorama photography. It can be used with all panorama plates and heads with dovetail connection, such as Linhof heads 3D Micro, 3-D Levelling Head II, panorama plates or all other makes with corresponding connection (Arca and Novoflex).

Three slots and scale ensure precise and flexible work.

Net price without VAT: 95,00 Euro

Technical specifications:

Adapter rail long with dovetail track

Code 003695

Length 150 mm

Camera screws 3/8" and 1/4"

Weight 110 g

Extra-slim dovetailed adapter plate (003694) in connection with Linhof panorama plate (003674)

Linhof adapter plates with dovetail track

Code 003693, 003692, 003694

Adapter rail long with dovetail track

Code 003695

New Linhof Products

eShutter Holder

022549

The eShutter holder is attached under the tripod head and is used to adapt the eShutter (Rodenstock, Sinar). The angle of the mounting rail can be changed by clamping screw. When not using the shutter, the rail can be removed, the plate remains on the tripod. The fastening screw 3/8" is included in delivery.

The eShutter holder can also be used to attach other devices to the tripod as an additional benefit. Mounting plate 70 mm diameter.

Net price without VAT: 190,00 Euro
